Torah Comics

Grades 8-10

Teacher: Rabbi Gary Hoffman

Course style: Study and Visual Arts

The Talmud tells us that when God was instructing Moshe regarding the detailed architectural plans for the Mishkan (the tabernacle) written textual instructions were not enough. Moshe failed to understand. He needed a visual image- a pictorial sketch- to appreciate the full grandeur of the Miskhan. The Rambam (Maimonides) tells us that prophecy was communicated through visual “parables”. Again, spiritual messages were communicated via imagery and art. Sometimes pictures can open entire worlds. Images are a means of connecting to a side of a story through more than mere words: pictures bring the words to life.

In this class we use StoryBoard software to create a graphic novel of the weekly Torah reading. Come to class with a device.

Why Do Jewish

Grades 10-12

Teacher: Rabbi Gary Hoffman

Course style: Text: Why do Jewish: A Manifesto for 21st Century Jewish Peoplehood

Today, in the 21st century, living Jewishly ought to mean more than just being born a Jew. "Doing Jewish means taking some specific actions, living by some specific values, celebrating some specific moments, and recognizing you are part of some specific family." Learn what you like and don't like about Jewish culture, religion and practices and then decide for yourself which aspects and values you want to embrace.

Jews "shouldn't have to feel like they're a bad Jew because they're not doing it the 'pure way' or the authentic way. They're changing it up. They're doing what works for them. And I want them to feel really good about that."

This is a perfect course for Seniors headed out of their parent's home soon.

In this class, each week we will decide who and/or what belongs on the Jewish Mount Rushmore, or shall we say Mount Hermon. This class will be full of debate, opinions, and fun conversation about who and what is the best we have to offer.
